Ouerdia ABDICHE

Full-Stack Developer | Junior Data Analyst | Information Systems Engineer

Tizi Ouzou, Algeria • +213 0672770168 • ouerdiaabdiche@gmail.com • GitHub • Portfolio

PROFILE

Versatile Information Systems Engineer (Master 2), at the crossroads of full-stack web development, data analysis, and applied AI. Hands-on experience across several personal and academic projects: complete web applications (React, Node.js, Laravel), AI platforms with agents and LLMs, end-to-end data pipelines (scraping → ML → Streamlit dashboard), and KPI dashboards with Python. Autonomous, organized, with good communication skills and comfortable working in a team. Looking for a first position in development, data, or AI.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, PHP (Laravel), Java, C#, HTML5, CSS
Frontend: React, Next.js, React Native, Redux, TailwindCSS, Bootstrap, Vite, React Router, React Hook Form
Backend & APIs: Node.js, Express.js, Laravel, REST API, JWT, Socket.io, Electron.js, Expo
Databases: MySQL, MariaDB, PostgreSQL, MongoDB, Supabase, SQLite, Drizzle ORM
Data & AI: Python (Pandas, NumPy, Matplotlib, scikit-learn, XGBoost), Machine Learning, LLM (Google Gemini), Streamlit, Chart.js, MLflow, KPI
Project Management: Requirements analysis, team coordination, progress tracking, Agile methods, Jira
Tools & DevOps: Git, GitHub, Docker, Postman, Render, NPM, PNPM, Yarn, CI/CD (GitHub Actions), S3

PERSONAL & ACADEMIC PROJECTS

FlowMind — AI workspace dashboard | Demo *Personal project*

- Full-stack workspace platform with AI agents, automation workflows, a document knowledge base, and an activity log — each user has an isolated space.
- Integration of Google Gemini (LLM) for AI features: natural language questions, project analysis, agent execution. Uploaded documents are extracted and indexed to provide context for the agents.
- Stack: Node.js, React, Vite, TailwindCSS, PostgreSQL + Drizzle ORM, Google OAuth (OIDC), S3 (Neon Object Storage), Docker, deployed on Render.

DataPulse — IT market intelligence engine | Demo *Personal project*

- End-to-end data pipeline: scraping of tech job postings (Data Scientist, ML Engineer, Dev) → cleaning → SQLite storage (SHA-256 deduplication, atomic upsert) → feature engineering → XGBoost training.
- Market salary prediction with calibrated confidence intervals (Conformalized Quantile Regression, 81-84% actual coverage). 'Next best skill' analysis and feature importances.
- Interactive Streamlit dashboard: live KPIs, salary calculator, model tab with metrics. MLflow for tracking, APScheduler for automation, Docker + GitHub Actions CI.

EventTix — Event ticketing & booking platform | Demo *Personal project*

- Full-stack cultural and professional ticketing application in Algeria: event creation by category (concerts, conferences, sports), booking, and QR code generation.
- Stack: Laravel (PHP), MySQL, deployed on Render.

FinSight — Personal finance tracking and analysis | Demo *Personal project*

- CRUD financial analysis application: recording of income/expenses, transaction categorization, dashboards and interactive charts to visualize monthly trends (KPI).

Tala — Instant messaging application *Academic project*

Team of 12 members · Leader of the User Accounts & Video Calls sub-team

- Requirements analysis, team leadership: task distribution, progress tracking, and coordination through to delivery.
- Development of the user accounts module (registration, secure authentication, profiles) and the real-time video call feature.

Syncra — Real-time polls and quiz platform | Demo *Academic project*

- Polls, votes, and quiz application with live-updated results (Socket.io).

CollabHub — Team collaboration platform | Demo *Personal project*

- Collaborative project management interface: project creation, calendar, task assignment and tracking.

EDUCATION

Master 2 — Information Systems Engineering *2024 – 2026*
Mouloud Mammeri University – Tizi Ouzou

Bachelor's Degree in Computer Systems *2021 – 2024*
Mouloud Mammeri University – Tizi Ouzou

CERTIFICATIONS

- Project Management — IBM SkillsBuild
